

Longitudinal Data
For INequalities
In Education

OPENING EVENT

20 SEPTEMBER 2024

ABOUT LINEup PROJECT

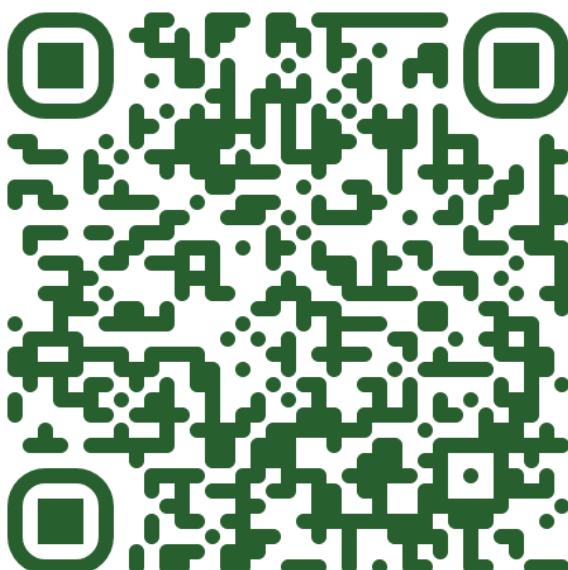

LINEup aims at **identifying key success factors for quality education for all**, by mapping and analysing the research design and findings of **existing longitudinal data on students' learning outcomes** at primary and secondary level.

JOIN US IN KARLSRUHE!!!

The **opening event of the EU-funded project LINEup** will be hosted by **Karlsruhe University of Education in Germany**, which is one of the few countries in Europe that systematically collects longitudinal data in education.

CHECK THE AGENDA & REGISTER

Register today and do not miss the opportunity to:

- **Learn more** about longitudinal data and inequalities in education.
- Engage in the **co-creation of a SWOT analysis** as a tool to increase awareness on the importance of longitudinal data in the field of education.
- **Network** with educational researchers, policymakers and practitioners from all over Europe.
